## Dear Friend and Partner in Ministry

**T**hank you for the great support and love for the little ones and their mothers here!  
We bless the Lord and His Holy Name at Wakisa Ministries.

**W**hile the new findings have revealed that Uganda is still with a very high percentage of people infected with HIV/AIDS, we have received only 4 girls with AIDS, the rest have tested negative. The girls and their babies have been supported and protected. As 2016 comes to an end, we look back and marvel at God's faithfulness, goodness and mercy that endures forever. To Him belongs honour and praise, the Lord of the years whose love has kept and guided us.

MISS UGANDA 2016 AT WAKISA

**BABIES born this month are only 3**

**1st baby :** Daniel Wakisa was born of Elizabeth Atim 16 years. She had a caesarean section due to obstructed labour. She has stayed her since June when her mother threw her out of the home when she found that Elizabeth was pregnant. She beat Elizabeth so badly that her clothes were torn and sustained wounds on the body. She was rescued from mum’s wrath by the neighbours when they heard the screams. A family friend brought her at Wakisa. The boy who made her pregnant denied responsibility and disappeared from his home.

It was during one of the counseling sessions that an olive branch of forgiveness was extended to Elizabeth by the mother as the counselor had a conversation with her on phone.

Elizabeth said she forgave her mum for beating her since she was the one who had committed an offense.

ELIZABETH WITH HER BABY

**2nd BABY** is Samuel born of Hajarah who is 15 years. She had a spontaneous delivery and she was discharged in good condition the second day. She had an unpleasant and difficult childhood when both her parents died. She and her six siblings were each taken to a different home and has since then never seen any of them. Her uncle and his wife who never loved her were less concerned during her crisis pregnancy. It was a church pastor who brought her to Wakisa and later promised to take her in if they could take her baby in an orphanage.

Do lift her to the Lord so that she can be received with her baby and that she can go back to school.

**3rd Baby** is a girl Abigail of Merian 16 years ,she is already gone home while the two are still with us here. The babies were all immunized against polio and tuberculosis.

## Girls

**M**ost of the girls at the center are getting ready for our Thanksgiving day and seem excited. The youngest is 13 years.

Maureen who was diagnosed with syphilis after the test turned out positive is on strong treatment for four weeks.

Victoria, one of the new girls scared wits out her fellow girls as she walked in her sleep and behaved weirdly for 3 nights. They had to share a bed due to fear of Victoria and some believed she had some witchcraft and could put evil spells on them. God heard our prayers as she has not been up and about at night!

**P**rayer requests which some of the girls shared with staff and I would like to share with you

**Ruth** :15 That her parents can forgive her for the wrongs/ mistake she made.

**Margaret** 17 : For knowledge and open the door to go back to school.

## Girls Get Treats From Visiting Teams

**G**irls have enjoyed colourful events this month with local Christians and other organizations including members from Compassion International, Uganda Christian University Mukono, MEMPROW, Mothers Union ,and other institutions. Some have organized a buffet and dined with the girls. Some have brought in clothes, clothing , food and other items. One group organized here a surprise baby shower for their friend at Wakisa Ministries. It was quite fun and immensely enjoyable by the girls. We also had Miss Uganda visit us .

Linda and Christine from Australia led by Julie Marshall have brought not only colour but warmth, love and the word of God to the girls and the entire center. They have brought with them wool and teddies for the girls .

Linda has turned and arranged the little back room (constructed by Kilkeel Presbyterian Church members) into a cosy beautiful counselling area.

FOLLOW UP

**A**nnika Dittman with Rachael continue to visit young mothers at home and those sponsored in schools. Her general observation is that school girls seem to have hope for their future while young mothers at home have desperate needs and lack basic needs and capital to start income generating projects.

It is my prayer that God rewards and bless you for all your love and support for the Ministry. It is also my prayer that He continue to touch you in a mighty way to support the **Operational costs of the Ministry, School fees for young mothers and the Building of the WAKISA BUILDING** which will have a Birthing Center, and accommodate the girls .

May God keep you in His perfect peace as your mind is stayed on Him.

In His Service

Vivian
