## Samalie

**T**he first day of the month, shook us and took us all by surprise all shaken when Samalie suddenly lost her sight and complained about her blurred vision and headache than she started convulsing. Her blood pressure shot up to 160/110, we managed to rush to hospital for emergency.

It was a trying moment for our staff on duty at Wakisa as the hospital demanded 500,000 before Samalie could be treated. She was eventually wheeled into the operation room where a baby boy was delivered by Caesarean Section. Though she had lost her consciousness before and after operation, Samalie fully recovered after a week!!!

## NEW GIRLS

This month we have received another girl, Rosette 13, with mental retardation. The two are gradually coping with the daily but quite a challenge for the staff to handle the two girls with special. Harriet is HIV positive and is 8 months pregnant and also mentally challenged. Peace and Allen, both 16 years also developed high blood pressure in their third trimester 150/98 and 160/100 respectively which is uncommon among the girls. Peace, despite her height she delivered by Caesarean Section. 4 girls are receiving skin treatment of their severe ring worm skin disease which is quite expensive

It has been a challenge for the counsellor to communicate with Rosette because she cannot express herself very well. Rosette's mum is a single mum who bobs a job for a living for her 4 children. When she was out one day, a man by the name Geoffrey came in and raped Rosette. This man ran away from the village. Rosette always saw Geoffrey in the community and this is how she could remember his name. There is a good Samaritan in their community who referred the mum to Wakisa Ministries because the mum with her meagre income could not take care of Rosette anymore. She is 4 months pregnant Rosette does not know what is inside her stomach!!!

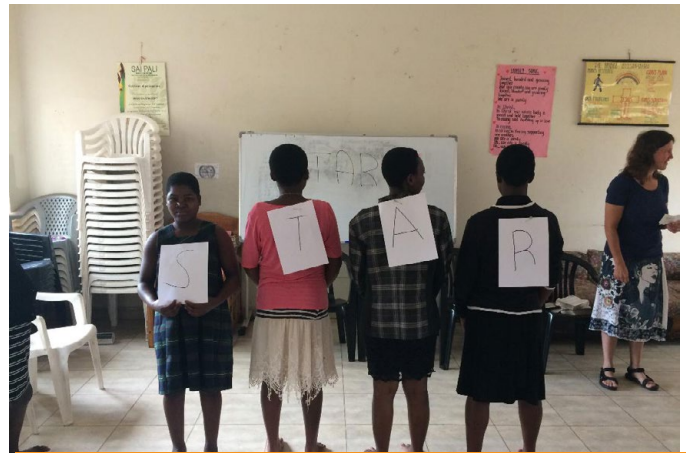

Teddy 17 and Brenda 17 are among the new girls and they seem to be possessed with evil! They have been screaming on top of their voices whenever during prayers and morning devotions. The two have very strong background of witchcraft practices. Teddy had suicidal thoughts, she wanted to abort despite the counselling she received. Last week she became so violent after wriggling on the floor, kicking the house mother as she tried to pull her up. She became too strong for the gate keeper as he tried from the gate which she was pulling down. We had to ask the Remand Home for teenagers. We have stood our ground praying and invited the pastor to pray. Brenda has no more attacks but Teddy has continued so she was taken back home to protect the rest of the girls from harm.
