Thank you

It has taken us some weeks to settle in well at the new centre which is now home to 21 pregnant girls, 3 not pregnant girls and 5 young mothers.

In school, we have 18 girls studying practical agricultural skills at Agromax - the Agriculture Institute. 32 young mothers in the communities being supported to Learn from Home. 3 of our students, 2 candidates and a university student

will be sitting their final exams. We pray they do well to get ahead.

The Learn from Home program has provided students with; mobile data, scholastic materials toiletries and text books for them to study at home. The students felt encouraged and have found the program very helpful. 96 girls have benefited from this program.
