

wakisa family

## Dear Friend and Partner in Ministry,

Your great support ,partnership ,prayers and input has added priceless value to the emotional ,physical and spiritual lives of pregnant girls and their babies . Thus fulfilling the VISION and MISSION of the Ministry to the glory of God !!

Your financial support in all activities in Wakisa Ministries have uplifted the lives of the beneficiaries that their acquired skills will be for a life time !!

God's faithfulness endures as He supplies according to His richness in glory through you His people during lockdown and normal times.

One of the challenges is a 13 year pregnant girl we received with mental illness which we thought was mild ,only to find that she was aggressive to her fellow girls ,undressing herself publicly and passing urine anywhere.Our doctor looked at Malaria and AIDS which had never been managed as the cause of her mental illness .She has now been transferred to the Psychiatric Hospital. Sylvia was picked on the streets when she was brought to Wakisa and her is still unknown .It is Wakisa Ministries to follow up on her and visit her in this hospital. We are grateful to God for the 12 girls that have accepted Christ .

## Admissions

There have been 3 admissions with challenges healthwise which are highly infectious if untreated.

A 17 year old with Tuberculosis and Epilepsy

13 year old with AIDS and Mental illness

13 year old with Hepatitis B

This month we supported 28 girls at the center; 3 of them have new borns and are doing well. Pray for the 2 young mothers who had ceaserean section.

We admitted 9 girls with crisis pregnancies and resettled 5 girls.

Isabella 16 years Baby boy (3.4 kg )normal delivery

Leona 18 years Baby boy (2.5kg) C/Section

Aisha 14 years Baby boy (3.2kg) C/Section

## Sylvia's Situation

Sylvia , is a special needs girl who requires assistance both mentally and medically. The probation officer from Gomba District brought her to Wakisa Ministries after community members expressed concern to her for Sylvia who had no family. She had loitered from village to village and was believed to have been sexually abused. This was later confirmed during the medical exam.

The community members took her to the local authorities who made many announcements on radio and community speakers regarding Sylvia but none of the family members showed up to come and collect her. The police had no missing persons case registered either and so she was brought to Wakisa Ministries with the support of the Local Chairman and Probation Officer.

At Wakisa Ministries, the medical exams and mental health assessments showed she had been abused . When we received her at the center she went through a diagnosis and discovered she was psychotic. For the few weeks she was at Wakisa, Sylvia smiled, shared, slept and was cared for. However, she started getting violent and harming fellow girls. In order to protect other girls from being harmed we referred her to Butabika Mental Health Facility.

We are working together with the hospital to see that Sylvia's transfer is smooth and that she gets all the care she needs.

## Graduation

The girls at Agromax finished their skills training and were awarded certificates. What joy and pride they have brought to us all.

We held a social distanced ceremony at Agromax with their teachers. 2 of the girls did so well that Agromax has retained them as interns.

We pray and hope that more families will support and encourage the young girls to be empowered through skills training and education.

## Sponsorships

At Wakisa Ministries, we are looking forward to the formal schools reopening soon so the 28 young mothers can go back to school. The families of these young mothers are forever grateful to you for supporting their daughters through school.

## Visiting Teams at the Center

It was a great month hosting local different visitors of Wakisa Ministries. The teams brought food, had capacity building, there was a training for Crisis Pregnancy Centres and friendly visits from;

- Uganda Revenue Authority (URA) as they celebrated 30 years in Service (brought food stuff, toiletries and planted trees .
- Training with CRANE Children at Risk Action Network
- Rotary Wakiso District brought food.
- Ministry of Gender, Labour and Social Development

*Rotary club of wakiso at the center*

*CRANE team with the center Manager*

*URA team @ 30 at the center*

*visitors planting a tree with the girls at the center*

## Vocational Skills

September has been the favourable month for the Agriculture class where so many activities have been carried out in the garden.

- Preparing the garden
- transplanting spinach, cabbage and sweet potatoes and onions.

At the same time girls have been feeding on the green leafy veggies and for months now we have not spent money on buying the vegetables

Vocational classes of Computer lessons , cookery, tailoring , knitting class,arts and

crafts,Bible study (Alpha course for beginners) ,life skills class, infant care,hair dressing and Agric.

Girls have been introduced to netball and aerobics and keep fit exercise by Anna from Germany and Christina from the Netherland . Anna is doing a good job teaching to computer basics and typing skills to the girls .

This month in the knitting class, the girls were taught how to make baby stockings,and how to make baby blankets. In the hair dressing class, twisting hair and cornrows.

## Some Photos from September

*visiting Joan with baby Daniel (5 months)*

*some friends of wakisa at the center*

*computer theory class at the center*

*a moment with the new baby,*

## Prayer / Appeal

The construction of a health center and the completion of the Perimeter wall at the center is still a dire need .Please pray for the funding to come .We will appreciate any contribution towards these needs

Please pray that the father of one Leona forgives her. She has delivered but her dad does not want her at home because he told her to abort the baby and she refused.Her mother forgave her though Leona's pregnancy brought shame to the family as it was her big sister's husband who raped her when she had gone to visit them.

With more girls we pray that God will provide food and protect them from Covid and the above mentioned diseases.
